

THE CLARENDON LABORATORY  
PARKS ROAD  
OXFORD

From the Wykeham Professor of Physics  
W. E. LAMB Jr.

13th Nov. 1958.

Dear Joshua,

Thank you very much for your letter of 7th November. I certainly do remember you and the disappointment I felt when I realised you had other interests than physics. I was very interested to hear that you are going to Stanford University. I enjoyed my stay there very much and I am sure that you will find conditions to your liking there. I hope you will come to know and like my friends in the Physics Department, such as Bloch, Schiff, *Pake*, *Ginzton*, Chodorow, Panofsky, Drell, etc.

If you pass through Oxford again I hope you will make an effort to let me know or to look me up. I probably will be spending summers in New York but, of course, I can hope that you will stop in Oxford on your way to or from Stockholm.

With best wishes,

Yours sincerely,

*Willis*

Professor Joshua Lederberg,  
Department of Genetics,  
University of Wisconsin,  
Madison 6,
